DETAIL

Figure 1: High Voltage Electrostatic Actuator

The high voltage electrostatic actuator is a device that converts electrical energy into mechanical energy. It consists of a metal plate and a plastic plate. The metal plate is connected to a high voltage source, and the plastic plate is connected to ground. When the high voltage source is turned on, the plastic plate is attracted to the metal plate, causing it to move. This movement can be used to actuate a valve or a switch.

Figure 2: High Voltage Electrostatic Actuator

The high voltage electrostatic actuator is a device that converts electrical energy into mechanical energy. It consists of a metal plate and a plastic plate. The metal plate is connected to a high voltage source, and the plastic plate is connected to ground. When the high voltage source is turned on, the plastic plate is attracted to the metal plate, causing it to move. This movement can be used to actuate a valve or a switch.

COMPANY PROFILE

FOSHAN DESSION PACKAGING MACHINERY CO., LTD.

Foshan Dession Packaging Machinery Co., Ltd. is located in China Machinery Center, Nanhai District, Foshan city. Dession is a collection of research and development, manufacturing, sales and after-sales service in one of the high-tech enterprises. It has the self-import and export rights. DE newsletter focusing on production and research and development, all kinds of bag packaging machine, filling machine, and the research and development and manufacture of automatic packaging line. With superior performance, advanced technology, easy operation, easy maintenance, safe, durable, widely used in puffed food, snack food, frozen food, agricultural and sideline products, medicine, chemical products and other fields to meet the needs of customers.
