DETAIL

Figure 1: Mechanical assembly of the sensor

The sensor is a piezoelectric sensor, which is a type of sensor that converts mechanical energy into electrical energy. It is used to measure the pressure of the fluid in the pipe. The sensor is mounted on the pipe using a mechanical assembly. The sensor is connected to a data logger, which records the pressure data. The data logger is connected to a computer, which displays the pressure data on the screen.

Figure 2: Mechanical assembly of the sensor

The sensor is a piezoelectric sensor, which is a type of sensor that converts mechanical energy into electrical energy. It is used to measure the pressure of the fluid in the pipe. The sensor is mounted on the pipe using a mechanical assembly. The sensor is connected to a data logger, which records the pressure data. The data logger is connected to a computer, which displays the pressure data on the screen.

< COMPANY PROFILE >

FOSHAN DESSION PACKAGING MACHINERY CO., LTD.

Foshan Dession Packaging Machinery Co., Ltd. is located in China Machinery Center, Nanhai District, Foshan city. Dession is a collection of research and development, manufacturing, sales and after-sales service in one of the high-tech enterprises. It has the self-import and export rights. DE newsletter focusing on production and research and development, all kinds of bag packaging machine, filling machine, and the research and development and manufacture of automatic packaging line. With superior performance, advanced technology, easy operation, easy maintenance, safe, durable, widely used in puffed food, snack food, frozen food, agricultural and sideline products, medicine, chemical products and other fields to meet the needs of customers.
