

# THE DETAILS OF THE MACHINE CAN BE SEEN

## Outer bag film conveying shaft

Reasonable bag-making structure, smooth bag-making and coordinated film-drawing links, not easy to shift.

## Ultrasonic sealing

The seal is firm, no temperature is generated, the materials in the inner bag are not affected by temperature, and the shelf life is longer.

# SIX ADVANTAGES

High technology and high standard

Precise quantity control

Blanking process

full automation

Simple operation

Stainless steel fuselage

Wide application

Contact us 

# APPLICABLE PACKAGING

It is very popular in foreign markets because of its special ear-hanging filter screen, three-sided sealing and beautiful bag shape.
