3. 3D printing technology is used to create a custom  
3D printed part that is used to replace the original  
part of the machine.

3D printing technology is used to create a custom  
3D printed part that is used to replace the original  
part of the machine. This technology allows for the  
production of complex parts that are difficult to  
manufacture using traditional methods. The 3D printed  
parts are used to replace the original parts of the  
machine, ensuring that the machine continues to  
operate efficiently and safely.

# < CUSTOMER TESTIMONIALS >

True praise and good quality are all based on customer needs

**Service praise**

Great job done by Foshan Dession ... I want to thank you all for this nice experience ... the next to come is the best 🤗

**Quality praise**

Hi Christy

At the moment dont need help

we test it one time

it works

now waiting the bobbins

**Quality praise**

Ok. Thank you, we will inform you!!!

Thaaaaank you very much dear Alisa you are Super, perfect with your engineer 🙌🙌🙌🙌🙌🙌. Everything is ok.

77 roses for you from heart

**Quality praise**

Ok thanks. Am busy installing the last machine

2021

i did the installation today, perfect machine

**Service praise**

My pleasure , it's happy to get your good feedback on the machine

It's good And your service is excellent Your Boss must give increase

**Quality praise**

成 Neel 美国单工位预制袋混合沙

Hello Joe - the machine continues to run better every day. We're hoping that all the parts do not start to break with use.

If anything breaks (like the heating bar), can you send up replacement parts?
