## Product advantages

Automatic three vibrating plate counting and packaging machine is an advanced solution that revolutionizes the packaging and counting processes for small parts. This machine offers a range of benefits that enhance productivity, accuracy, and efficiency in manufacturing lines.

**Precise counting** - The vibrating plates ensure that the parts are counted accurately, minimizing the risk of errors and waste.

**Automated operation** - The machine is fully automated, reducing the need for manual labor and increasing efficiency.

**User-friendly interface** - The machine features an intuitive interface that makes it easy to use and operate.

**Compact design** - The machine has a small footprint, making it easy to integrate into existing manufacturing lines.

**Versatile** - The machine can handle a wide range of small parts, making it a versatile solution for

manufacturers.

**Durable** - The machine is built to last and withstand the demands of continuous use in manufacturing environments.

**Consistent output** - The machine ensures consistent output, ensuring that each package contains the correct number of parts.

Overall, automatic three vibrating plate counting and packaging machine is a reliable, efficient, and versatile solution that can benefit manufacturers across a range of industries. With its high-speed counting and packaging capabilities, precise counting, and automated operation, this machine can enhance productivity, accuracy, and efficiency in manufacturing lines.

## Product specification

Model	DS-260LS
Packaging speed	30~60bags/min
Bag length	40~200mm
Bag width	50~130mm
Machine size	1100*755*1540mm(L*W*H)
Machine weight	300kg
Machine power	220V,50/60HZ,1.2KVA

# Company profile

Foshan Dession packaging machinery Co., Ltd. is located in Nanhai District, Foshan city, China machinery center, is a collection of research and development, manufacturing, sales and after-sales service in one of the high-tech enterprises, with self-import and export rights. DE newsletter focusing on production and research and development, all kinds of bag packaging machine, filling machine, and the research and development and manufacture of automatic packaging line, with superior performance, advanced technology, easy operation, easy maintenance, safe, durable, widely used in puffed food, snack food, frozen food, agricultural and sideline products, medicine, chemical products, metal products and other fields, to meet the needs of customers.

## EXHIBITIONS

## Our Customers

# Contact us

## Our Advantage

On-site installation,  
commissioning and training

High automation, simple  
operation and labor saving

Specially customized  
based on actual situation

Life long technical  
service support

Dession has a professional team to provide customers with various packaging solutions. Fully understanding the needs of customers, engineers design the most suitable solution. We have our own processing and assembly workshop and quality inspection and debugging process to ensure the quality of the machine. After acceptance by the customer, they are packed in international standard woodencases and shipped. If customers have any questions during the use of the machine, we will answer them in time.

## PACKAGING SHIPPING

Upon receipt of payment , delivery date will be in 15-30 working days, By Air, by Sea or by Express (DHL etc)

## AFTER-SALES SERVICE

1. With professional after-sales service team, we can provide you with a satisfied and technical service no matter which country you are in;
2. Any videos of packing machine installation, adjusting, setting, maintenance are available for any buyer;
3. If you got any problem when using the machine and the videos can not help, our technician will have video chatting with you to fix your problem;

(Notice: In order to save your cost, we offer various video chatting service for you, but if you insist on the service oversea, the travel expense and technician cost will paid by you.)
