

## Control Panel

It can be used right after booting, quickly set parameters, supports multiple languages, and is simple and convenient to operate.

## Sealing wheel

It adopts a double sealing wheel design, made of chromium steel, with high hardness, rust-proof and durable, making the sealing effect more perfect and the sealing degree high.

## Miniaturized design

It is suitable for small enterprises or family workshops, and is also an ideal equipment for proofing and backup of medium and large enterprises.

## The can does not rotate

The tank does not rotate during the sealing process, and the sealing hob rotates to complete the sealing, which is reliable and safe and prevents materials from being thrown out.
