

Automatic wet tissue napkin fork spoon cutlery packing machine manufacturer Machine

< INTRODUCE >

The automatic wet tissue napkin fork spoon cutlery packing machine manufacturer is specially designed for paper towels, chopsticks, toothpicks, table knives, spoons, forks, and other kinds of combined packing. The machine adopts vertical folding, down into the film material mechanism, fast packing speed, stable operation, and can automatically complete the following processes: paper towel folding - slicing - chopsticks, toothpicks, knives, chopsticks, spoons automatic feeding - bag-making - counting - batch number - finished product output and other functions. The high degree of automation, saving time, labor, and cost; And effectively avoiding paper towels and other tableware in the packing process of secondary pollution, more in line with the relevant national production safety standards. The compact design of the machine saves more effective space in the workshop, safe and easy to operate. It is the current preferred equipment for tableware packaging

< APPLICATION SCENARIOS >

< MACHINE ADVANTAGES >

1. Double frequency conversion control, bag length can be set and cut in one step, saving time and films.
2. Adopt PLC & HMI programming software, easy to operate and set.
3. Self-failure diagnosis, clear failure display.
4. High sensitivity photocell tracing, input cutting, and sealing position digitally, extra accuracy.
5. PID controls temperature independently which is more suitable for packing different materials.
6. Positioned stop function, without sticking knife or wasting film.

7. Simple driving system, reliable working, convenient maintenance.

8. All control is realized through software, easy for function adjusting, and technical upgrades.
