

## Can sealing machine, paper can, aluminum can, food can sealing machine

德迅 *Dession*®

< INTRODUCE >

The machine adopts non-standard customization, and the heat sealing

mold is customized according to the actual size of the packaging container. The frame is made of high-quality thickened 304 stainless steel, which is beautiful and sturdy. It has an intelligent PLC control system and a human-machine operation interface, making it easy and simple to operate.

## < APPLICATION SCENARIOS >

Tinplate can

PET can

Plastic jar

Aluminum can

Paper can

Tin can

## < MACHINE ADVANTAGES >

1. The equipment occupies a small area, is light in weight, can be used in elevators, and has no site restrictions.
2. Except for the manual operation of placing cans and lids, the rest of this machine is automatically controlled.
3. By replacing the pressure head mold, jars of different calibers can be sealed to achieve multiple uses in one machine, thereby increasing the production value of the equipment.

< [DETAIL](#) >

## Control Panel

It can be used right after booting, quickly set parameters, supports multiple languages, and is simple and convenient to operate.

## Sealing wheel

It adopts a double sealing wheel design, made of chromium steel, with high hardness, rust-proof and durable, making the sealing effect more perfect and the sealing degree high.

## Miniaturized design

It is suitable for small enterprises or family workshops, and is also an ideal equipment for proofing and backup of medium and large enterprises.

## The can does not rotate

The tank does not rotate during the sealing process, and the sealing hob rotates to complete the sealing, which is reliable and safe and prevents materials from being thrown out.
