## Application

This packaging machine is suitable for tea packaging. Such as bulk tea, herbal tea, health tea, scented tea and other inner and outer bags One-time packaging. DS-T-C21DX, the process of this machine is mainly to pour the tea leaves into the hopper, and then discharge the material to make the bag. Make the inner tea bag first, and then transport it to the outer bag packaging place through the chain bucket. It is suitable for customers who require full automatic and fast efficiency.

**NYLON TRIANGLE BAG**

**NON-WOVEN FLAT BAG**

**Nylon triangle tea bag**

**Triangle inner and outer bag**

**Inner and outer bag Square/Pillow tea bag**

## Product Advantage

High-speed production: Can produce up to 40 tea bags per minute, making it ideal for large-scale production.

- Customizable tea bag sizes: The machine can be adjusted to produce tea bags in different sizes according to the customer's requirements, providing flexibility and versatility.
- Advanced technology: The machine uses advanced technology to ensure precise measurement and filling of tea, resulting in consistent quality tea bags.
- Easy operation: The machine is user-friendly and easy to operate, with a touch screen interface that allows for simple adjustments and troubleshooting.
- Durable and reliable: The machine is made of high-quality materials and is designed to withstand the wear and tear of continuous use, ensuring a long service life.
- Wide range of applications: The machine can be used to pack a variety of teas, including loose leaf tea, herbal tea, and fruit tea, making it suitable for different types of tea manufacturers.
- Tight and secure seal: The ultrasonic sealing technology ensures a tight and secure seal for the tea bags, preventing the tea leaves from spilling out and ensuring a fresh and aromatic cup of tea every time.
- Rope and tag feature: The machine includes a rope and tag feature, allowing for easy and convenient handling of the tea bags.
- Small conical bags: The machine can pack tea bags in small conical shapes, making it suitable for different types of tea leaves.
- Efficient production: The nylon pyramid tea bag packing machine is designed to operate at high speeds, allowing for efficient production of tea bags.

Product specification

Model	DS-T-C21DX
-------	------------

Filling range	1-10g/bag $\leq \pm 0.1\text{g/bag}$
Packaging speed	20-40 bags/min
Inner bag size	50~80mm
Outer bag size	140~180mm
Sealing method	Sealing and cutting by ultrasonic
Gas supply	$\geq 0.6\text{Mpa}$ (can be equipped with air compressor)
Machine power	220V, 50/60HZ, 1.2KW

Foshan Dession packaging machinery Co., Ltd. is located in Nanhai District, Foshan city, China machinery center, is a collection of research and development, manufacturing, sales and after-sales service in one of the high-tech enterprises, with self-import and export rights. DE newsletter focusing on production and research and development, all kinds of bag packaging machine, filling machine, and the research and development and manufacture of automatic packaging line
