Honey Processing and Packing Machine , Honey Stick Bag Packing Machine Function and Characteristics

1	Stainless steel for the whole machine
2	Low noise, multi languages display for better understanding.
3	Bag-making system with stepping motor subdivision technology, high accuracy and the error is less than 0.5mm
4	Intelligent temperature controller with heat balance enables different packaging materials.

Detail Photos

Honey Processing and Packing Machine , Honey Stick Bag Packing Machine Application

Suitable for packaging variety of liquids, slurries, pastes, fillings such as HONEY , juice, Tomato Sauce, ice pop , ice candy and so on.

FOOD

Agriculture

Drip Coffee

Chemical

Beverage

Medicine

Scope of Application

Package Materials

Laminated Film, like OPP/CPP, OPP/CE, MST/PE/PET/PE. etc

COMPANY PROFILE

Dession Packaging Machinery Co., Ltd is a comprehensive modern packer-manufacturing company integrating research, manufacturing, and sales. Our company has passed the CE certification of the EU. Besides, our equipment is extensively appraised by many customers from different countries such as England, Germany, France, Russia, America, Singapore, Malaysia, South Africa, Israel and so on. All technologies and equipment are based on practicality and applicability, striving to improve production efficiency and create customer surplus value.

CORPORATION MISSION:

Gather industry advantages, create quality products, and service all customers! Integrated high-end people; researched advanced technology; promoted industry progress

CORPORATION TARGET:

To be the world-class packaging machine supplier.

BUSINESS PHILOSOPHY:

Research technologies painstakingly, adhering to honest management, and service whole industries!

About Our Price

Foshan Dession Packaging Machinery Co., Ltd mainly manufactures pillow packaging machines and vertical automatic packaging machines.

The equipment prices vary depending on the type of machine (type is up to the size and property of the customer's product) and the customer's specific requirements for the machine (complete or partial stainless steel

of the equipment).

Besides, based on the packaging machine's brand of essential components, prices will be different among China, Japan and Germany.

Finally, the prices of standard and non-standard machines are also different. The standard machine is generally a fixed price, but the non-standard one is based on specific requirements such as the way of delivery, the form of measurement, the demand for inflating and deflating, the style of making a bag, the way of punching as well as coding, etc.

Shipping:

Upon receipt of payment, the delivery date will be in 15-30 working days, By Air, by Sea or by Express (DHL etc)
