

Low-price semi-automatic Desktop detergent filling machine

德迅 Dession®

< INTRODUCE >

The Low-price semi-automatic Desktop detergent filling machine,

designed and manufactured by Foshan DESSION Packaging Machinery Co., Ltd., is a versatile and efficient solution for filling a wide range of liquid products. This semi-automatic machine combines advanced technology with user-friendly features, making it suitable for various industries such as detergent manufacturing, cosmetics, food and beverage, and more.

< APPLICATION SCENARIOS >

Oil

Water

Cleaning supplies

soy sauce/vinegar

Liquor

Drinks

< MACHINE ADVANTAGES >

1. The filling head adopts anti-drawing design, filling quickly and without dripping.
2. 304# stainless steel, trough, filling nozzle and liquid contact parts are made of 316# stainless steel and food grade PP.
3. Pure electric, pure electric split modular unit structure solves the problem of unstable air pressure of traditional pneumatic structure, and also solves the maintenance problems of traditional cam linkage structure affecting the whole body.
4. Simple operation, most adjustments are intelligently adjusted through

the touch screen. For example, to adjust the weight, you only need to adjust the number of rotations of the motor of the unloading function on the touch screen to quickly adjust the filling capacity.

5. Fast and low-noise, filling can be done by pressing the button. It can fill 14 bottles of 500ml per minute and 840 bottles in one hour. It is equipped with high-speed motor rotation and less noise.

6. Wide application, wider applicability, suitable for filling a variety of liquids of different concentrations, supporting viscous liquids such as cosmetic water, honey, high-concentration dark caramel, gel, etc. without the need for back-drawing, blocking and other devices, and easy cleaning .

7. Safe and reliable. It adopts the integral outlet heating tube and silicone-coated spring tube thermoelectric temperature sensor, which is not easy to break, prevents leakage, has good waterproof performance, and is safer.

< MACHINE DETAIL MARKINGS >

DETAIL

Filling nozzle

Made of food-grade stainless steel material, not afraid of rust, long service life, anti-drawing design, filling speed without dripping.

Operation panel

Using a touch-screen microcomputer control system, manual touch can be used to issue operating instructions to the machine, enabling simple and convenient operation.

Pneumatic hand slide valve

The simple design makes it easier to adjust the air pressure, and it can be closed and opened by sliding left and right.

PLC control system

The control system and electrical components are arranged neatly and concisely, which not only makes the operation of the machine easy, but also facilitates temperature control and heat dissipation of the chassis.
