

Newly upgraded! Honey spoon turntable filling machine - precise and efficient integration

INTRODUCE

The whole body of the machine is made of stainless steel. It is suitable for

packing honey spoon, can automatically complete filling, lid feeding, sealing and spoons output. The machine has many advantages, such as intelligent digital temperature control system, with high seal strength, good sealing effect, low failure rate. It is the preferred business automation production product.

APPLICATION SCENARIOS

◀ MACHINE ADVANTAGES ▶

1. Customizable Molds: Custom molds can be customized to suit different usage scenarios, enabling one machine to serve multiple purposes.
2. Sensor Sensor: Automatically detects and discharges materials, eliminating the need for a spoon.
3. Metering: Utilizes a pneumatic pump for efficient and energy-efficient metering.
4. Film Sealing: The film sealing system features an independent temperature control system, maintaining a constant temperature of 180-200°C for heat sealing, ensuring a beautiful, burr-free seal.
5. Drive System: Requires an air compressor. A 6.4kW high-power compressor is recommended for its stable pneumatic operation and the ability to operate multiple devices simultaneously.

DETAIL

Spoon Film Heat Sealing Device

The honey spoon heat sealing device controlled by the intelligent temperature control system can set the temperature according to the material of the film, and perfectly complete the sealing process of the capsule.

Pneumatic Metering Filling

Device

The customized high-precision pneumatic metering and filling device has a special retraction device to ensure the accuracy of honey metering and filling. The range of filling can be set on the machine, and the operation is simple.

Electric eye device

There will be no filling when there is no cup, and an alarm will sound.

Automatic spoon dropping system

Mainly completed by the pneumatic device, the system consists of pneumatic components, Storage spoon rack and other components; by the template to stop when the signal is sent to the bottom at the same time the suction spoon synchronization control action to complete. Stable and efficient.

< CUSTOMER TESTIMONIALS >

True praise and good quality are all based on customer needs

Service praise

Great job done by Foshan Dession ... I want to thank you all for this nice experience ... the next to come is the best 😊

12:23 12/10 12/10

Quality praise

Hi Christy 8:13 PM
At the moment dont need help 8:14 PM
we test it one time 8:14 PM

it works 8:14 PM
now waiting the bobbins 8:14 PM

Ok thanks. Am busy installing the last machine

2021 8:14 PM
i did the installation today. perfect machine

12:23 12/10 12/10

Service praise

So next ye 今天 I'll visit 12:12 PM
Okay good luck 12/12/22
All the best 12/12/22

Thank you 12/12/22
First you use the machine and any thing you need you can ask me 12/12/22

Thanks 12/12/22

My pleasure , it's happy to get your good feedback on the machine 12/12/22

It's good
And your service is excellent
Your Boss must give increase 12/12/22

成 Neal 美国单工位预制袋混合沙

Hello Joe - the machine continues to run better every day. We're hoping that all the parts do not start to break with use.

If anything breaks (like the heating bar), can you send up replacement parts?
