< **INTRODUCE** >

Box Film Wrapping Machine, also known as three-dimensional transparent film packaging machine, cigarette pack machine, transparent

film hexahedral folding cold packaging machine, or transparent film packaging machine. This machine is middle packaging equipment that uses BOPP film or PVC as packaging material to form a three-dimensional hexahedral folding package of the packaged items.

It is widely used in three-dimensional skin-fitting packaging of cosmetics, medicines, food, health care products, audio and video products, stationery, daily necessities and other transparent films outside the box (the packaging effect is the same as that of cigarettes).
