

Semi-automatic playing card box BOPP film laminating machine

德迅 *Dession*[®]

< **INTRODUCE** >

Box Film Wrapping Machine, also known as three-dimensional transparent film packaging machine, cigarette pack machine, transparent

film hexahedral folding cold packaging machine, or transparent film packaging machine. This machine is middle packaging equipment that uses BOPP film or PVC as packaging material to form a three-dimensional hexahedral folding package of the packaged items.

It is widely used in three-dimensional skin-fitting packaging of cosmetics, medicines, food, health care products, audio and video products, stationery, daily necessities and other transparent films outside the box (the packaging effect is the same as that of cigarettes).

Hello Joe - the machine continues to run better every day. We're hoping that all the parts do not start to break with use.

If anything breaks (like the heating bar), can you send up replacement parts?
