Multilingual touch screen

The multi-language touch screen can switch various languages at the same time, and when there is a problem with the machine, it will automatically alarm, pause the operation and show where the machine is in the problem.

Miniature electronic scales

Can choose stainless steel material / plastic material and support custom 2-head, 4-head, and 6-head scales. Each scale can put a different

product; while measuring down, the accuracy can reach up to 0.2G, suitable for packaging tea, herbs, flower tea, coconut flakes and other small-weight products.

Ultrasonic sealing

The inner bag is fully ultrasonic sealed and can be cut in a straight line to avoid film waste. A small enclosure will surround it to protect the operator from contact burns, and is environmentally safe. It can handle packaging materials such as nylon, PLA fibre, PET, non-woven, and other ultrasonic sealing materials.

Inner and outer bag integrated packaging

By connecting two machines with one conveyor, inner and outer bags can be packed together simultaneously, saving labour costs.

Quality praise

Ok thanks. Am busy installing the last machine

2021

i did the installation today, perfect machine

Service praise

My pleasure , it's happy to get your good feedback on the machine

Quality praise

Hello Joe - the machine continues to run better every day. We're hoping that all the parts do not start to break with use.

If anything breaks (like the heating bar), can you send up replacement parts?
