

automatic water pouch packing machine manufacturers

Product Overviews:

Function and Characteristics:

1	The section where the material contact is stainless steel as the body of machine is optional for complete or partial stainless steel.
2	Inverter and power switch are all imported with advanced technology.

3	High-sensitivity photoelectric color tracing and digital input of cutting position get more accuracy.
4	Low noise, clear cutting pattern and strong sealability.
5	Packaging speed and length of bags can be set to some extent without further adjustment and parts changing.
6	Metering adjust device enables loss reducing, volume of the packaging changing anytime and improve productivity.
7	Aimed at liquid or medium cream material, injection pump with leakproof device and anti-pull function enable extra accuracy of filling; the speed and the volume are adjustable.
