

## High-speed fuel treasure filling machine China manufacturer

### < INTRODUCE >

The "High-Speed Fuel Treasure Filling Machine" is a cutting-edge liquid filling and capping solution designed and manufactured by Foshan DESSION Packaging Machinery Co., Ltd., a leading high-tech enterprise in China. This double head chuck filling machine and capping machine is specifically engineered for small vial liquid production and finds extensive applications in various industries, including essential oils, e-liquids, perfumes, pharmaceutical liquids, juices, inks, water, syrups, and more. With a filling speed of 40-60 bottles per minute, it offers outstanding efficiency and convenience for liquid filling

The high-speed fuel treasure-filling machine is suitable for filling viscous liquids, such as paste, honey, jam, sauce, oil, etc. It is equipped with a servo motor and only needs to enter a specific number to adjust the filling range. Compared with other filling machines, this tracking-type filling machine can control the filling nozzle following moving bottles during filling work. It reduces production errors and improves sealing accuracy. They are widely used in cosmetics, seasonings, washing and care products, and other industries.

This machine is suitable for packaging many different kinds of products; such as puffy food, shrimp rolls, peanuts, popcorn, cornmeal, dried fruit, seeds, small hardware, dumplings, vegetables, fruits, and sugar, etc. which shape is roll, slice, and granules.

### < APPLICATION SCENARIOS >

## < MACHINE ADVANTAGES >

1. Versatile Liquid Filling:\*\* This machine is suitable for a wide range of liquids, from essential oils to pharmaceutical solutions, providing versatility to meet various industry needs.
2. Premium Quality Components:\*\* All components are sourced from world-famous brands, ensuring the machine's performance is stable and

durable, promoting long-term reliability.

3. Adjustable Filling Parameters:\*\* The filling volume and speed can be easily adjusted to accommodate different liquid products, making it a flexible choice for manufacturers.

4. Double Head Chuck Capping:\*\* The chuck lock cover system ensures a secure and efficient capping process, increasing productivity.

5. Compact and User-Friendly:\*\* With a bench-top design, this machine is highly convenient for operation, saving space in your production area while being efficient and cost-effective.

**DETAIL**

1

### LIQUID FILLING

Positioning and feeding can be matched with related liquid pumps to make the infusion speed

2

### INNER LID DEVICE

Through one upper cover, the next one will continue to flow, can be seamlessly linked

3

### INNER SCREW CAP DEVICE

After the inner cap is screwed, the outer cap will be replaced automatically

4

### OUTER SCREW CAP

After putting on the outer cover, press it through the equipment to make it tight and firm
