DS-200Y | Samples

Standar pillow bag

3 sides seal bag

4 sides seal bag

Application

This type of packing machine is suit for different kinds of liquid, such as water, sauce, juice, ketchup, paste, cream, shampoo, honey and so on.

Packaging material

The Heat Sealable Laminated Film like BOPP, PET/PE, PET/Plated AL/PE, Paper/PE, pp, etc.

Function and Characteristics:

- 1: Drive system: electric and pneumatic system.
- 2: PLC controller+English/Chinese display screen, all the parameters can be set on the screen.
- 3: The horizontal and vertical heat sealing temperature is controlled by intelligent temperature controlling mechanism.
- 4: Automatic and reliable intelligence photocell tracking system, easy to fix location.
- 5: Step motor is applied in bag-making system with high precision, the error is less than 0.5mm.
- 6: The length of bag is adjustable, no need to change any parts.
- 7: Compact design with caster wheel for easy mobility.

Detailed machine:

Sachet tomato ketchup package solution
20L hopper for liquid storage, can be customized

The Working Process of Pulses Packing Machine:

Automatic weighing—automatic filling—automatic bagging—automatic bag sealing—automatic cutting

**Falling to be filled
into sachet/pouch**

Packing and Shipping

Packing Process:

- Step 1,Cleaning
- Step 2,Lubrication
- Step 3,Wrap Modules With Plastic Film
- Step 4,Packing Modules into Plywood Cases(Fumigation free)

We can shipping your machine
by sea,by air or by train.
we can ensure the machine will
arrive to you safely and
economic
