1. The machine is designed to handle large quantities of pistachios efficiently.
 2. The dump gate allows for easy removal of the processed pistachios.
 3. The upper storage funnel provides a large capacity for the raw pistachios.
 4. The locking structure ensures the machine is secure during operation.
 5. The double layer feeder pans allow for a continuous flow of pistachios.
 6. The machine is easy to disassemble for cleaning and maintenance.
 7. The rotate to remove feature allows for quick access to the processed pistachios.
 8. The corner hoppers facilitate the smooth flow of pistachios through the machine.

The machine is designed to handle large quantities of pistachios efficiently. The upper storage funnel provides a large capacity for the raw pistachios. The locking structure ensures the machine is secure during operation. The double layer feeder pans allow for a continuous flow of pistachios. The machine is easy to disassemble for cleaning and maintenance. The rotate to remove feature allows for quick access to the processed pistachios.
